Craft Show Booth Layout Planner

Sketch your setup before event day. Mark racks, tables, checkout, visibility, and walking room.

Event: _____ Booth size: _____ x _____ Each square = _____ feet

Mark the customer-facing edge; the entry below is a suggestion, not a required setup.

KEY: T = table R = wreath rack C = checkout S = sign P = packing / backstock

Keep entrance, accessible travel paths, adjacent booths and exits clear.

Booth Setup & Display Notes

Measure the actual space, then use this checklist to test your sketch.

01 | BOOTH MEASUREMENTS

Canopy footprint (if used)

Table widths / depths

Display rack widths / depths

Aisle or walkway clearance

Sign / banner placement

Access to boxes / backstock

02 | BEFORE YOU SET UP

- [ ] Confirm event rules for booth boundaries, display heights and fixtures.
- [ ] Plan safe rack / canopy weights and secure freestanding displays.
- [ ] Check venue accessibility, egress, fire and electrical requirements.
- [ ] Position best sellers where they are visible without blocking the aisle.
- [ ] Keep prices easy to read and checkout easy to find.
- [ ] Leave a safe area for bags, supplies and customer pickups.
- [ ] Photograph the setup for a faster next show.

03 | ON-SITE CHANGES & NOTES
