Ribbon & Deco Mesh Cutting Planner

Plan cuts before unrolling your supplies. Record an allowance for waste and see the yardage you need; editable calculator included.

Project details

Wreath / project _____

Frame size _____

Ribbon style / bow style _____

Mesh technique _____

Ribbon cuts (measure in inches)

Ribbon color / width	Cut length	Pieces	Total inches	Notes

Deco mesh cuts (measure in inches)

Mesh color / width	Cut length	Pieces	Total inches	Notes

Yardage calculation

Ribbon total inches / 36 = yards

_____

Mesh total inches / 36 = yards

_____

Ribbon extra allowance (%)

_____

Mesh extra allowance (%)

_____

Cutting-day check

- [ ] Test one cut length in the planned technique
- [ ] Count ties / attachment points
- [ ] Cut and group by color or section
- [ ] Reserve material for bow tails or finishing
- [ ] Record unused pieces for next project

Manual calculation: total inches = piece length x quantity; yards = total inches / 36. Multiply by (1 + waste percentage) for the shopping estimate.
