Wreath Frame & Door Measurements

Measure the finished wreath and the space where it will hang - not just the starting frame.

01 | DOOR AND HANGING-SPACE SKETCH

Sketch is not to scale.

Door width

Door height

Available display width

Available display height

Door hardware / trim clearance

Storm door inside clearance

Hook / hanger drop

Desired wreath top height

BEFORE BUYING

Check door swing, handle, trim, sightlines, storm-door depth and allowed clearance at the actual hanging point.

Frame, Sign & Finished Size

A frame marked 14 inches does not automatically make a 14-inch finished wreath.

02 | FINISHED WREATH MEASUREMENTS

Frame diameter

Target finished width

Target finished height

Target overall depth

Sign width

Sign height

03 | VISUAL BALANCE PLAN

Placement notes

04 | PRE-HANG FIT CHECK

- [ ] Wreath fits the space without rubbing.
- [ ] Depth clears a storm door (if applicable).
- [ ] Sign and bow stay visually balanced.
