CHRISTMAS TREE DECO MESH PLANNER

Plan by loop length and roll size — not tree height alone.

Tree height & fullness _____

Visible sides / design theme _____

Mesh width / style _____

Yards per roll _____

1. Count pieces: **Number of loops** _____

2. Measure test piece: **Inches each** _____

3. Multiply and divide by 36: **Total yards** _____

4. Add 15-20% and round up to rolls: **Rolls needed** _____

WORKED EXAMPLE: 30 loops x 18 inches = 15 yards.

With 20% extra = 18 yards = 2 rolls when each roll holds 10 yards.

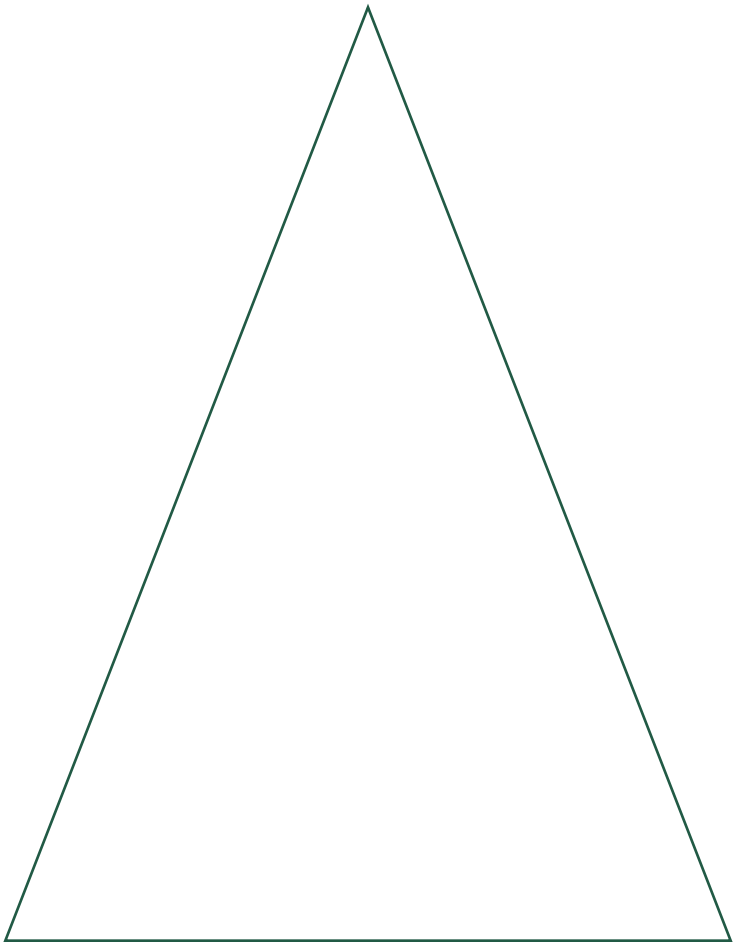

SHOPPING & SETUP CHECKLIST

- [ ] Test a loop before cutting a roll
- [ ] Check the mesh width AND roll yardage
- [ ] Choose coordinating ribbon / ornaments
- [ ] Keep mesh away from lights and heat
