CHRISTMAS TREE PICKS PLACEMENT PLAN

Plan accents by cluster, size, and placement zone.

Tree height & fullness

Visible sides / design theme

Focal accent type / color

Secondary accent type / color

Topper sprays (separate)

Upper / middle clusters

Lower / side clusters

Stems per cluster

Total stems to shop for

EXAMPLE: 5 clusters x 2 stems = 10 picks.

Add any topper sprays separately. Compare stem length and spread.

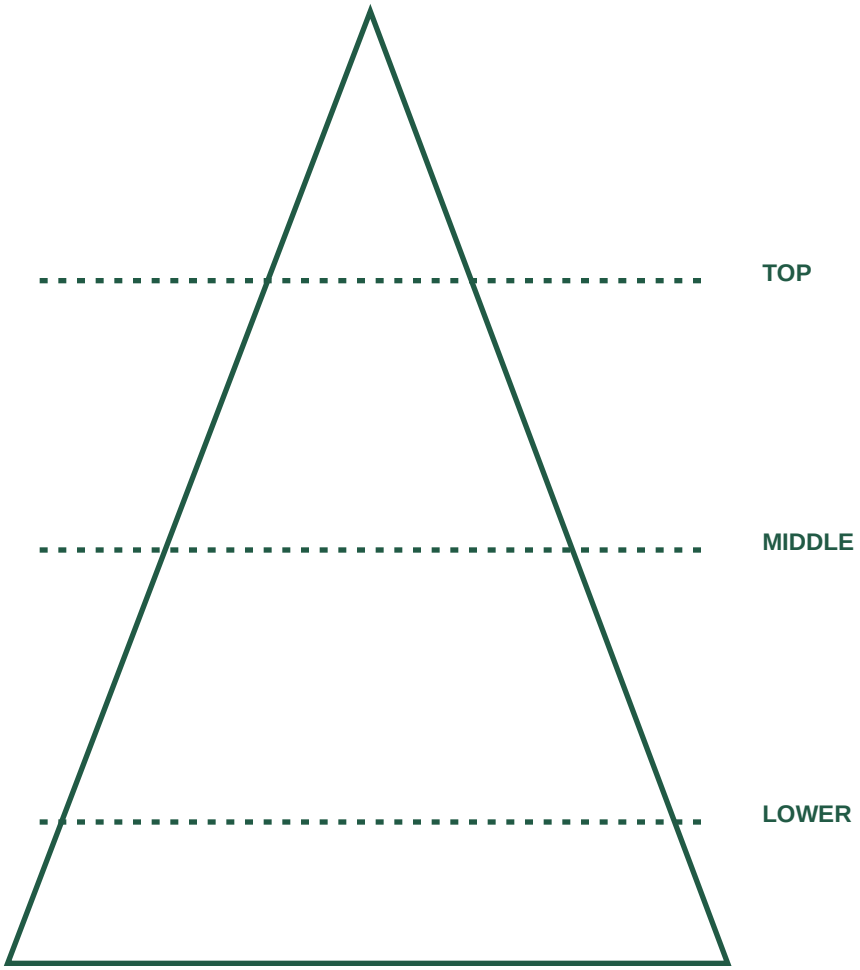

SHOPPING & SETUP CHECKLIST

- [ ] Fluff and dry-fit stems before attaching
- [ ] Distribute colors beyond the top of the tree
- [ ] Check branch stability and walkway clearance
- [ ] Keep stems away from electrical connections
